Girls Inc. of Wayne County Corporate Sponsorships - 2026

A Note About Corporate Sponsorships

In this packet, we have opportunities ranging from Corporate Sponsorship, Event Sponsorship, and Program Sponsorships. The Corporate Sponsorships combine marketing opportunities from multiple events into one gift which allows organizations to optimize their marketing and minimize the number of asks from our organization. Major events for Corporate Sponsorships include our 5K, Women's Conference, and Signature Event.

Corporate Sponsorships are a great way to stretch your gift across the year, however, we recognize that many organizations would rather support a specific event rather than a year of events. Those event sponsorship opportunities can be found near the end of this packet.

Thank you for considering supporting our organization and investing in our girls!

Why Partner with Girls Inc.?

Investing in Girls Inc. means investing in the next generation of leaders. Your support provides girls in our community with safe spaces, academic support, leadership skills, and life-changing opportunities.

In our programs, the girls are learning skills that will make them better, stronger, and smarter workers. They will have knowledge and experiences that help them be more empathetic, better at problem solving, do better in school than their peers, and are less likely to experiment with or use drugs, alcohol, and tobacco products. Our girls will grow up to be strong, smart, and bold in all aspects of their life.

As a Corporate Sponsor, you will reach local individuals and families through events and community programs marketing, have the chance to showcase your company's commitment to empowering the next generation, and create a direct, measurable impact for local girls.

OUR RESPONSE

Girls Inc. inspires all girls to be **STRONG, SMART, and BOLD**, providing girls with life-changing experiences and solutions to the unique challenges they face.

We support girls through a comprehensive approach to whole girl development which equips girls to navigate gender, economic, and social barriers. This approach helps lift girls out of poverty.

Without supportive gender-specific programming, many of the girls we serve are at high risk for being sex-trafficked, becoming pregnant, using drugs, dropping out of school, and breaking the law.
